

FUTURE

V1: Soloist only

There in the days when your heart
Feels like it's caving in
So there the peace begins

Sure as the dawn calls the sun
Jesus we hear Your love
Call out the light in us

Chorus 1: Add high harmony girls from here on Add all guys on melody

Life like You meant it
I can't contain it
Hope in the here and now
What a wide horizon
In the rush of Heaven
Life like You made it
I wanna live it
Wilder than all my dreams
Such a great adventure
Welcome to the future

ALL:

Ooh/Aahh, Aahh, Ah

V2: Soloist with girl harmony (duet)

There will be days when you find
You can't believe your eyes
Faith brings your world to life

Breathe in the air, it's a gift
Come on just let it in
Your best days are still ahead

Chorus 2: Add high harmony girls from here Add all guys on melody

Life like You meant it
I can't contain it
Hope in the here and now
What a wide horizon
In the rush of Heaven
Life like You made it
I wanna live it
Wilder than all my dreams
Such a great adventure
Welcome to the future
